Sofclear ENHANCE

-Fashion Lenses-

— with *BioMoist* —

The worlds only disposable contact lens that truly brightens and enhances the natural colour of your eyes.

Sofclear Enhance uses a carefully formulated combination of special tints to produce the right colour intensity every time. Available in three striking colours, Sofclear Enhance will have everyone talking.

Comfort - it's not just about the look. With all Sofclear contact lenses, comfort is everything. With radial edge technology providing the thinnest of edges, you will go a long way to find a more comfortable contact lens anywhere in the world. Sofclear Enhance lenses are packed in BioMoist.

The BioMoist formula is a hydrating solution containing hydroxypropyl methylcellulose (HPMC) and polyethylene glycol (PEG), which together mimics the natural tear film of the eye. The combination of these superior wetting agents provides a soft, silky feel which helps to optimise comfort, enhancing the overall wearing experience.
